PROFILE

Full-Stack JavaScript Developer with 5+ years of experience building web applications across compliance, carbon-emissions analytics, hospitality, real estate, employee management, and collaboration products. Experienced in developing React and Next.js interfaces, Node.js and Express APIs, database-backed workflows, authentication and role-based access, third-party integrations, and cloud-connected applications. Contribute across frontend and backend development, from reusable UI systems to production features and deployments.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, C#
Frontend: React, Next.js, Redux, TanStack Query, Shadcn/UI, Tailwind CSS, Material UI, Bootstrap, SCSS
Backend & Data: Node.js, Express.js, Convex, MongoDB, Firebase
Cloud & Integrations: AWS, Docker, BullMQ, Clerk, Stripe, Mapbox, Socket.io
Design & Tools: Figma, Illustrator, Photoshop, Git, Jira, FileZilla
Additional: Unity, Blender

EXPERIENCE

Bacancy Technology

June 2025 – Present

Compliance Platform

- Building **compliance platform** similar to drata, venta or secureframe
- Leading team with building **backend** and **frontend**
- Added **soc-2** compliance framework and working on all the features of the compliance
- Added iso 27001 & 42001 compliance framework

Bonzark

June 2024 – June 2025

Klimate *(React, MUI, TanStack Query, AWS, REST APIs)*

- Built a **dynamic qualitative questionnaire engine** with government-compliant validations.
- Implemented **JSON-driven UI rendering** powered by backend schemas for scalable form generation.
- Developed **user management modules** including roles, permissions, and lifecycle handling.
- Contributed to an ERP-grade carbon emission analytics platform used by enterprises.

Liberty International *(React, Redux, Node.js, MUI)*

- Integrated **third-party hotel aggregators** into a unified hotel listing system.
- Built and maintained a **hotel booking management dashboard**.
- Improved data consistency and booking workflows across multiple providers.

Plutus Technologies Pvt. Ltd.

Feb 2023 – June 2024

Property Watch *(React, Redux, Firebase, Bootstrap, SCSS)*

- Built the platform **from scratch**, including authentication and data flows.
- Designed intuitive inspection and collaboration UIs for US & Canada clients.
- Handled **daily deployments** and iterative feature delivery.

INSIDE (EMS Platform) *(React, Node.js, Express, SQL, Redux, PrimeReact)*

- Developed a **full-scale employee management system** (HR, projects, policies).
- Designed reusable layout systems for scalability.
- Managed backend APIs and SQL schema with focus on data integrity.
- Led weekly planning discussions and feature breakdowns.

TSP – Tiffin Service Provider *(React, Redux, Node.js, Express, SQL, Mapbox, Stripe)*

- Optimized database schema for performance and scalability.
- Implemented **role-based access control**, email workflows, and Stripe payments.
- Integrated **Mapbox** for geolocation-based services.
- Built analytics-driven dashboards for providers.

Koops Technologies LLP

Jan 2021 – Dec 2022

PartNote *(Next.js, TypeScript, Convex, Liveblocks, Tailwind)*

- Built a **real-time collaborative note-taking platform** from scratch to deployment.
- Integrated **Clerk authentication** and organization-level access control.
- Implemented real-time shared boards using Liveblocks and Convex.
- Designed UI/UX in Figma and translated designs into production code.

Kids Joy Tales *(React, Redux, CSS)*

- Built an audio-lyrics synchronization component.
- Designed and implemented analytics dashboard UI.

TSP (Tiffin service provider) *(React, CSS)*

- Designed dashboard UI for platform analytics and overview.
- Built reusable modular components and menu listing UIs.

EDUCATION

Master of Computer Application (MCA) — 2023
Gujarat Technological University

Bachelor of Computer Application (BCA) — 2021
Gujarat Technological University
